

LED STRIP LIGHT WITH S-SHAPE SPECIFICATIONS

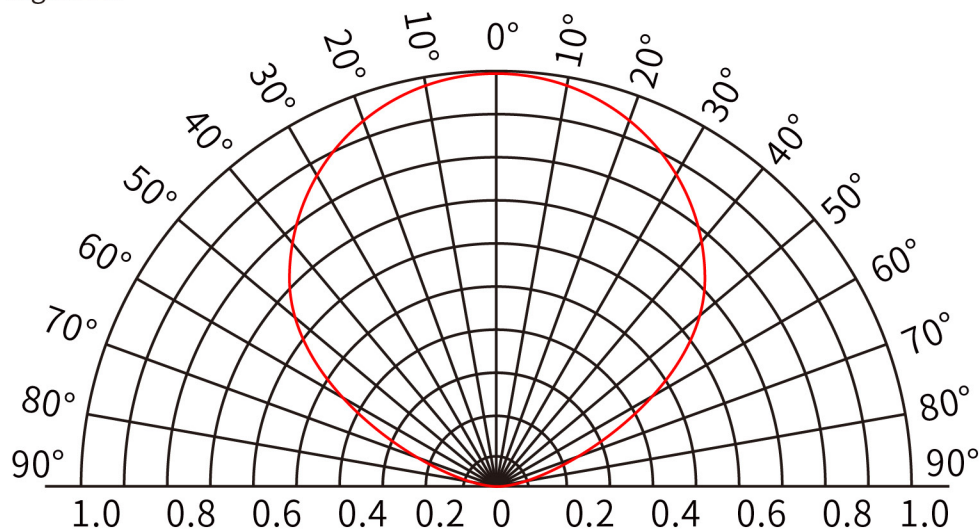

>> PRODUCT CHARACTER

Product name	Led strip light with S-shape -60D
Voltage	DC12V
Power	7W/Meter
IC type	WS2815
PCB Width	8mm
Waterproof class	IP20
Cutting length	5cm
Optional color	RGBIC
Package	5M/roll
Pixel	60pcs/M

>> PRODUCT FEATURES

1.Luminous Angle:120°

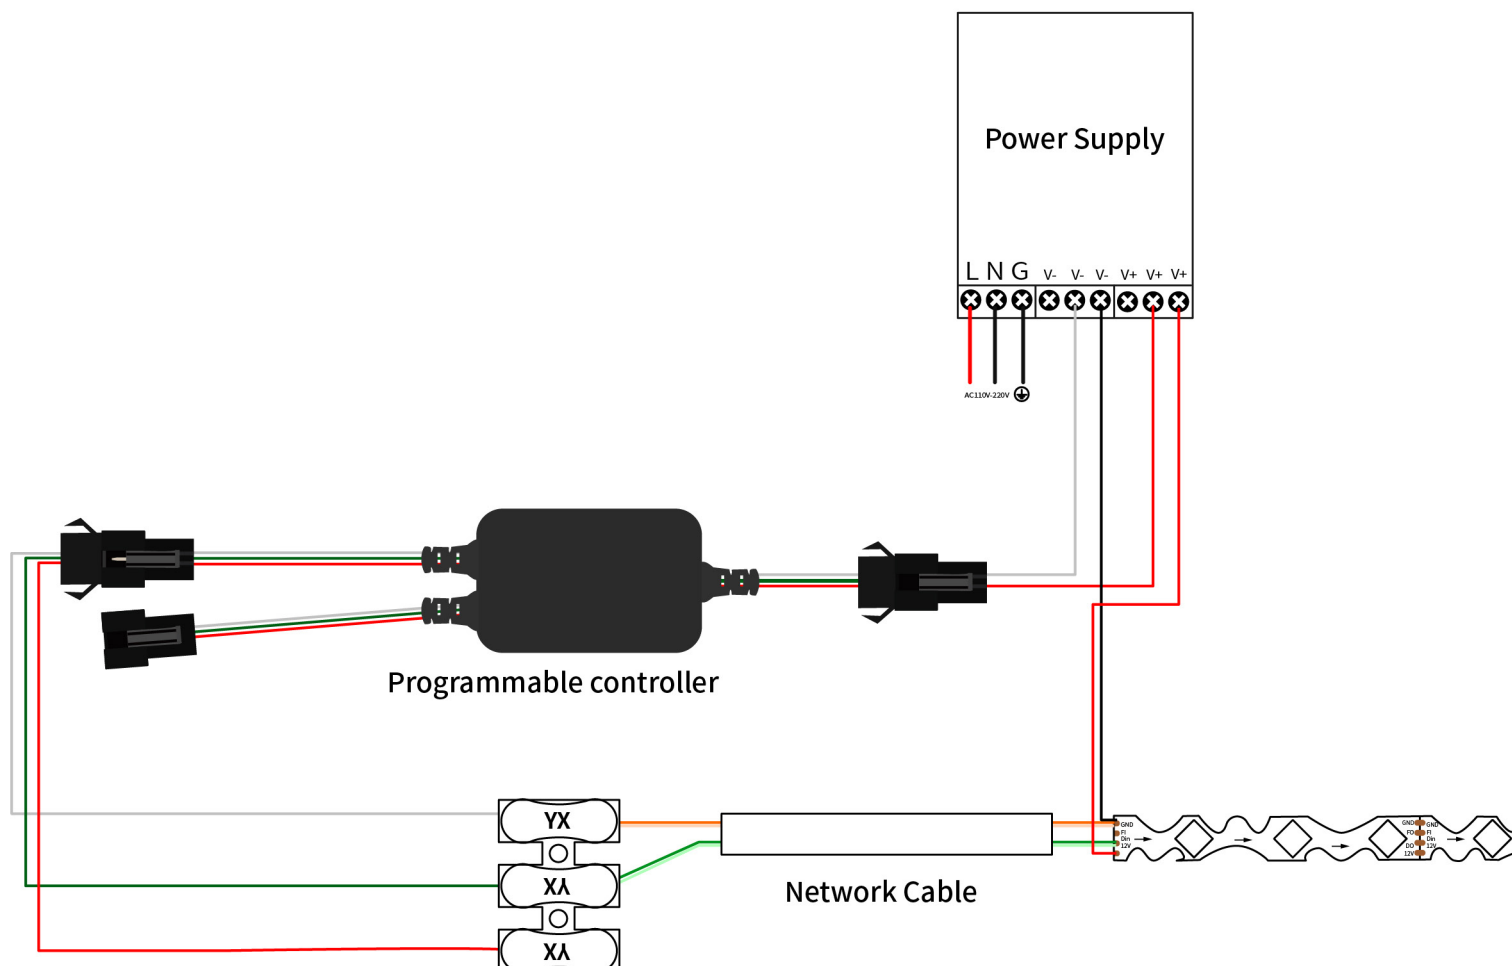

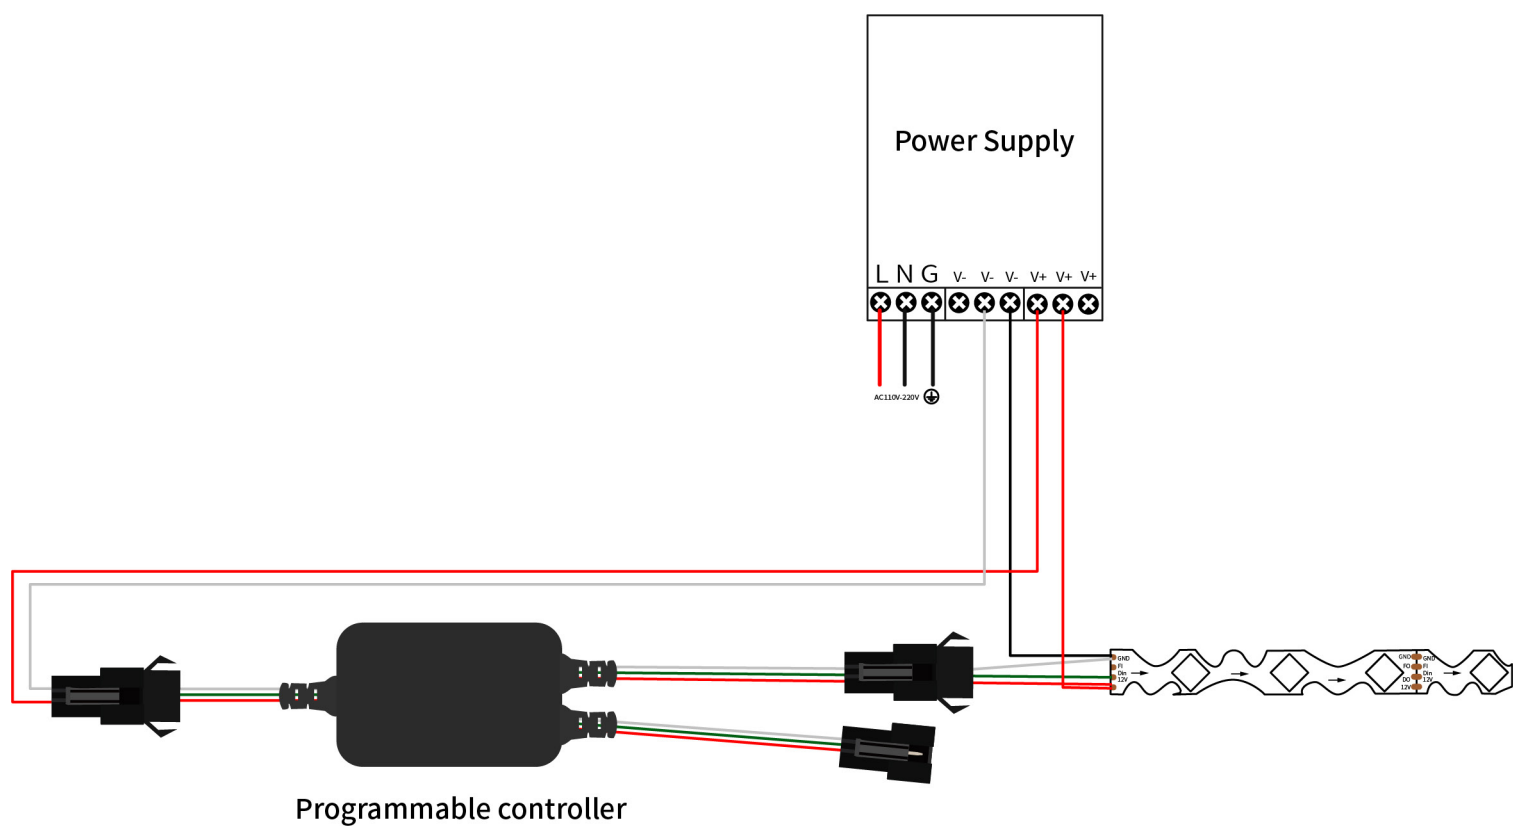

2.Features

- (1) Mobile phone programming compatibility: Enables a wide range of lighting effects, supports DIY dynamic modes, and allows adjustment of effect speed and brightness. Even beginners can get started quickly.
- (2) High cost-performance, easy to operate, and upgrades the ambiance at a low cost.
- (3)Flexible and bendable, with a long service life, ideal for creating 3D Channel Letter Sign.
- (4) 12V low-voltage power supply for enhanced safety.
- (5)Each section of the LED strip features clear cutting marks, allowing you to cut freely to match your exact length requirements and fit various irregular installation scenarios.
- (5) 2 years warranty.
