

# LED STRIP LIGHT WITH S-SHAPE SPECIFICATIONS

## >> PRODUCT CHARACTER

| Product name     | Led strip light with S-shape -90D |
|------------------|-----------------------------------|
| Voltage          | DC12V                             |
| Power            | 10W/Meter                         |
| IC type          | 3535                              |
| PCB Width        | 7mm                               |
| Waterproof class | IP20                              |
| Cutting length   | 3.3cm                             |
| Optional color   | Magic color                       |
| Package          | 5M/roll                           |
| Pixel            | 30pcs/M                           |

## >> PRODUCT FEATURES

1.Luminous Angle:120°

### 2.Features

- (1) The S-shaped bending design enables it to flexibly adapt to curved surfaces, and compared with straight-shaped LED strips, it can better fit complex shapes to achieve a more natural decorative effect.
- (2) It saves space and allows for concealed installation, maintaining the overall aesthetics of the space.
- (3) It realizes magic color dynamic variation with soft and glare-free lighting.
- (4) It supports convenient intelligent control and has a wide range of application scenarios.-
- (5) 2 years warranty.

## >> WIRING DIAGRAM

## >> APPLICATION

## >> NOTE & WARNING

- ▲ In order to be able to better achieve the luminous effect of products, each 5 meters or 10 meters long lamp with a power connecting
- ▲ In order to ensure the lamp with long service life and the environment, can not force pulling the power line in these process, no collision so as not to damage the LED lamp.
- ▲ Try to install the appropriate environment.
- ▲ Please note that careful operation, in the case of power on, don't hit the ac power, avoid shock.
